

Austrian Association of Industrial Engineering and Management (WING)

The **WING** is an apolitical, non-profit making association that aims to promote the scientific, social, cultural and professional interests of its members. Hence, it addresses professional and ethical issues concerning the training, provides advice on a wide range of subjects and promotes the exchange of ideas and the social networking of the members.

Members

Our 1.400 members are graduate Industrial Engineers and students of Industrial Engineering as well as of related technical and business studies.

Goals

- *Representation of interests and image of the profession*
- *Support in curriculum design*
- *Maintenance of contacts among members*
- *Link to the economy and the universities*
